

FISCAL NOTE

SB 858 - HB 1015

March 2, 2001

SUMMARY OF BILL: Allows local education agencies (LEAs) to conduct schools on a year-round basis so long as the minimum number of instructional, in-service education, conference, vacation and other days are maintained. Average daily membership payment under the BEP shall be adjusted to reflect the actual number of instructional and other days utilized by an LEA selecting this option.

ESTIMATED FISCAL IMPACT:

MINIMAL

Estimate assumes:

- the bill will not affect local government revenues or expenditures if the LEAs keep the same number of school days. (However, LEAs' expenditures will increase if school days extend beyond 180 instructional days.)
- the bill will have no effect at the state level since the BEP will still be calculated based on Average Daily Membership (ADM) and stays the same regardless of how many instructional days LEAs add to their calendar.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

James A. Davenport, Executive Director
